

Orange Conservation Commission presents

Growing Flowers from Seed

Join us with presenter John Wesolowski, to learn the unique ways flowers grow from seeds. Learn how you can help your garden thrive. The program on growing flowers from seed will take place on:

**When: Monday January 12,
7:00-8:30pm**

**Where: High Plans Community cafeteria
(Snow date will be 1/13/26 same time).**

What to bring:

Envelopes (for your seeds)

One gallon milk jug

Limited seats
available, register
here now!

<https://forms.gle/9GbQ2mzrTH74WLJJ7>

The program will discuss unique germination requirements that some plants need in order to germinate. Participants will then be given several kinds of seeds as we discuss their specific germination requirements and preferred growing conditions.

You will leave with both the seeds and knowledge to add beauty to your garden and to help pollinators.
